

My Planet Report Book

Name _____

Mercury

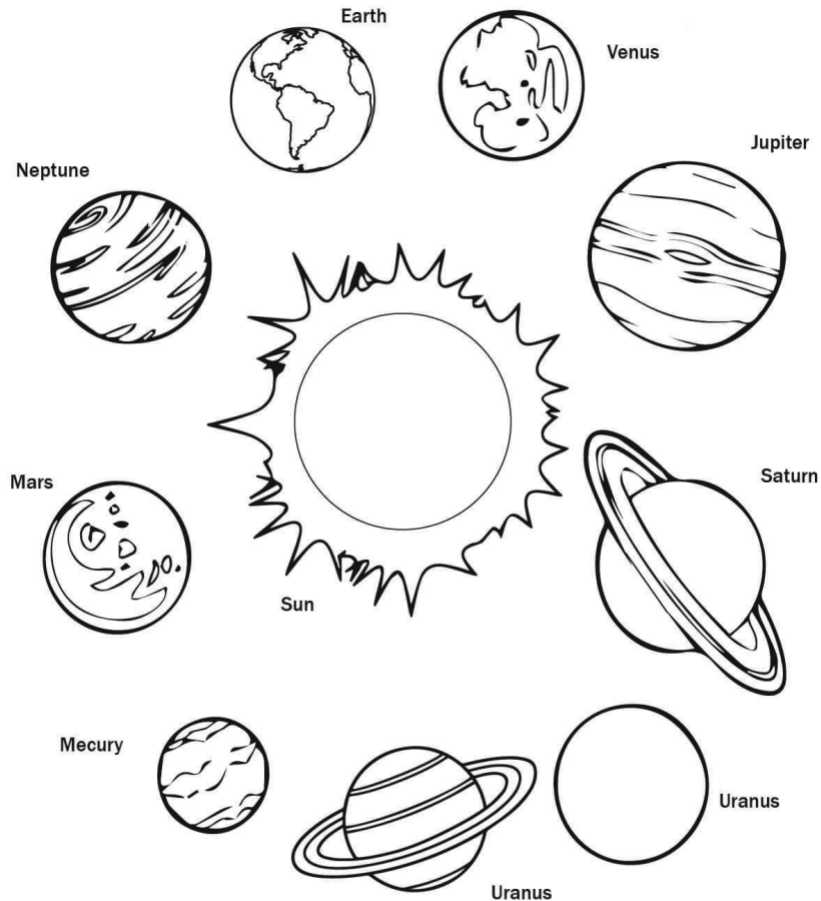

Distance from the sun 35.98 million miles.

Size/Diameter 3,032 miles in diameter.

Number of moons Mercury has no moons.

Surface Temperature 800 ° Fahrenheit.

Venus

Solar System

Distance from the sun 67 million miles.

Size/Diameter 7,521 miles in diameter.

Number of moons Venus has no moons.

Surface Temperature 900 ° Fahrenheit.

Earth

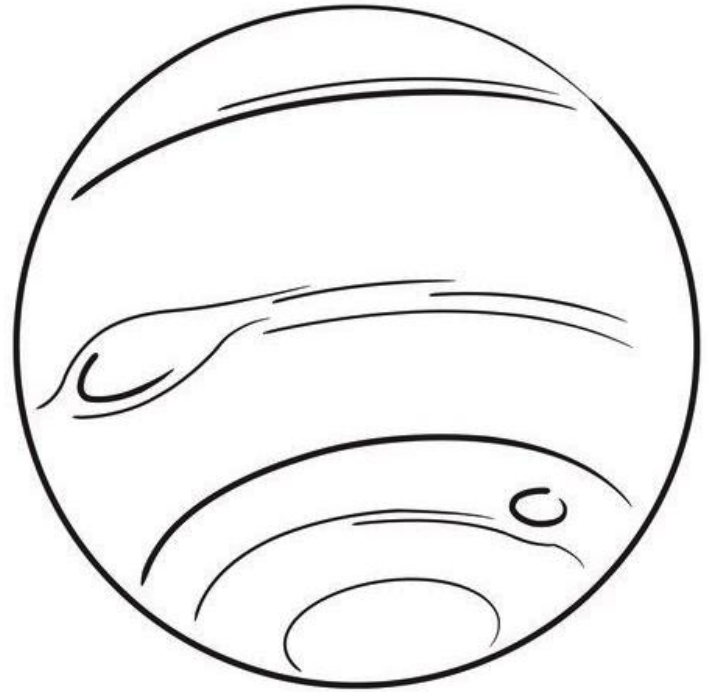

Distance from the sun 93 million miles.

Size/Diameter 7,926 miles in diameter.

Number of moons Earth has 1 moon.

Surface Temperature 57.2 ° Fahrenheit.

Neptune

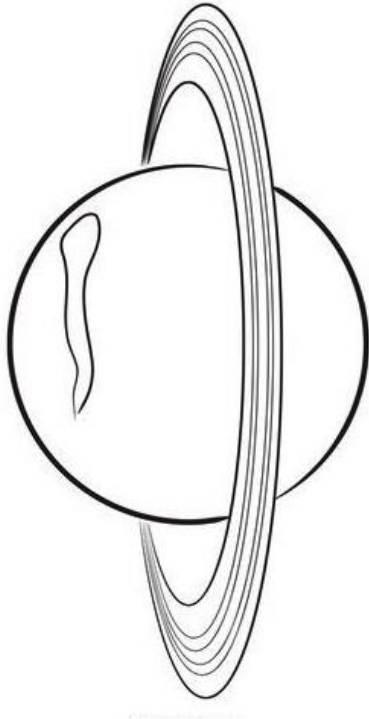

Distance from the sun 2,795 billion miles.

Size/Diameter 30,512 miles in diameter.

Number of moons Neptune has 14 moons.

Surface Temperature -340 ° Fahrenheit.

Uranus

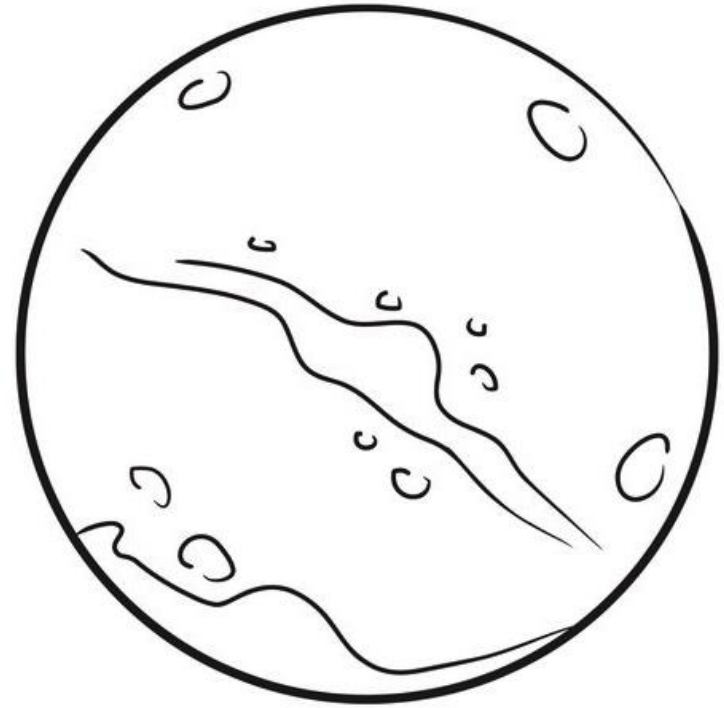

Distance from the sun 1,783 million miles.

Size/Diameter 31,764 miles in diameter.

Number of moons Uranus has 18 moons.

Surface Temperature -350 ° Fahrenheit.

Mars

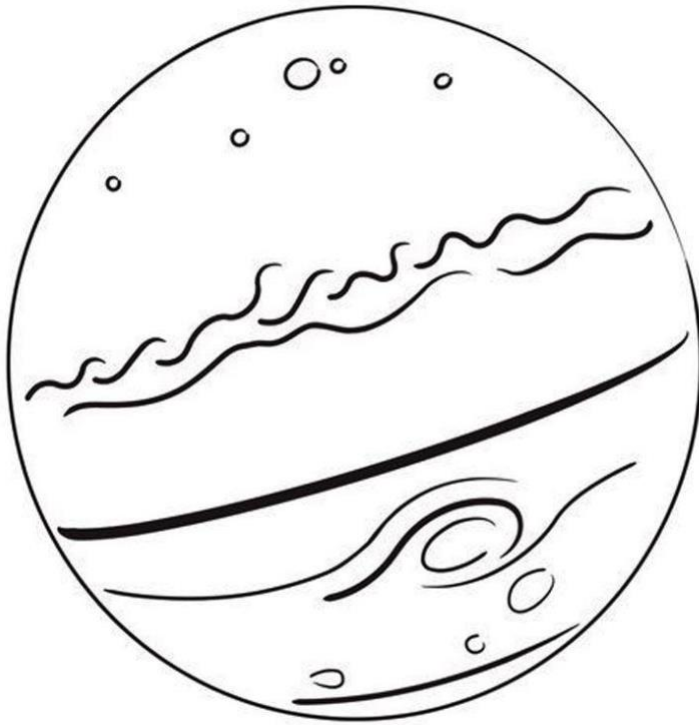

Distance from the sun 142 million miles.

Size/Diameter 4,222 miles in diameter.

Number of moons Mars has 2 moons.

Surface Temperature -53 ° Fahrenheit.

Jupiter

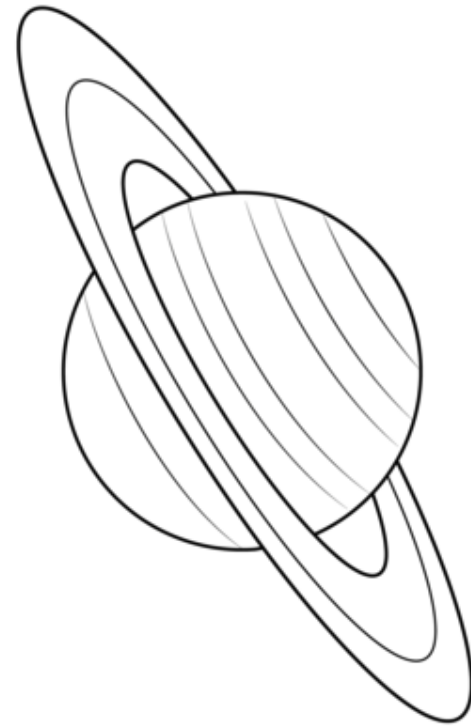

Distance from the sun 484 million miles.

Size/Diameter 88,849 miles in diameter.

Number of moons Jupiter has 16 moons.

Surface Temperature -163 ° Fahrenheit.

Saturn

Distance from the sun 888 million miles.

Size/Diameter 74,899 miles in diameter.

Number of moons Saturn has at least 18 moons.

Surface Temperature -218 ° Fahrenheit.
